

Grants for Water-Cooled Chillers

Support early switch to chillers using Low-Global Warming Potential (GWP*) Refrigerants

Name of grant	Energy Efficiency Fund	Resource Efficiency Grant for Energy	Grant for Low-GWP Refrigerant Chillers
Eligible entities	<ul style="list-style-type: none"> - Industrial facilities (SMEs¹) undertaking manufacturing activities 	<ul style="list-style-type: none"> - Industrial facilities undertaking manufacturing activities - Data centres 	<ul style="list-style-type: none"> - Existing buildings²
Eligible projects	<ul style="list-style-type: none"> - Replacement of existing high-GWP HFC water-cooled chillers with low-GWP refrigerant (GWP\leq15) water-cooled chillers. - The chillers should be used for the purpose of space cooling. - For Resource Efficiency Grant for Energy, the project should achieve at least 0.5 ktpa of carbon abatement from the upgrade to more energy efficient chillers. 		
Contact information	NEA_E2F@nea.gov.sg	Stephanie_CHIANG@edb.gov.sg	Jeremy_HONG@bca.gov.sg

Companies may email NEA_E2F@nea.gov.sg to check on their eligibility criteria.

* Global warming potential (GWP) is a measure of the warming effect of a gas relative to the warming effect of an equivalent mass of CO₂, usually over a 100 year time horizon.

1 Group annual sales turnover \leq S\$500 million

2 Excludes industrial buildings; transport facilities; religious buildings; data centres; utility buildings and residential buildings, except for serviced apartments
