

03 November 2023

To: Firms registered in BCA's Contractors Registration System (CRS)

Dear Sir/Madam,

CIRCULAR ON THE NEW FACILITIES MANAGEMENT AND SUPPLIERS REGISTRIES

Objective

This circular informs all firms registered in BCA's Contractors Registration System (CRS) that with effect from 1 Jan 2024, the Facilities Management (FM) and Supply (SY) workheads under the CRS will be migrated to the new Facilities Management Registry and Suppliers Registry.

Background

2 Currently, there are seven categories of workheads under the CRS. Registration under the relevant workheads is required for firms that intend to participate in public sector construction, construction-related, and other services (e.g. FM and SY) tenders.

Creation of new Facilities Management Registry and Suppliers Registry

3 As the services provided by FM and SY firms are distinct from those provided by construction firms, **BCA will migrate the FM and SY workheads currently under the CRS to two new registries – the Facilities Management Registry and Suppliers Registry respectively from 1 Jan 2024.**

4 There will be no change to firms' current financial grade and registration expiry date after the migration. Any CRS applications (including renewal applications) for FM and SY workheads submitted after 1 Jan 2024 will be deemed an application for the FM and SY workheads under the new Registries.

5 There will also be no change to public sector tender specifications after the migration. Government agencies will continue to specify the relevant FM and SY workheads, where appropriate.

Clarifications

6 Please direct your queries and/or clarifications on this circular to <https://www.bca.gov.sg/feedbackform/>.

An MND Statutory Board

Thank you.

Yours faithfully
