

# SAFE USE OF LIFTS

**Observe**  
**these dos and**  
**don'ts** when  
**using lifts.**

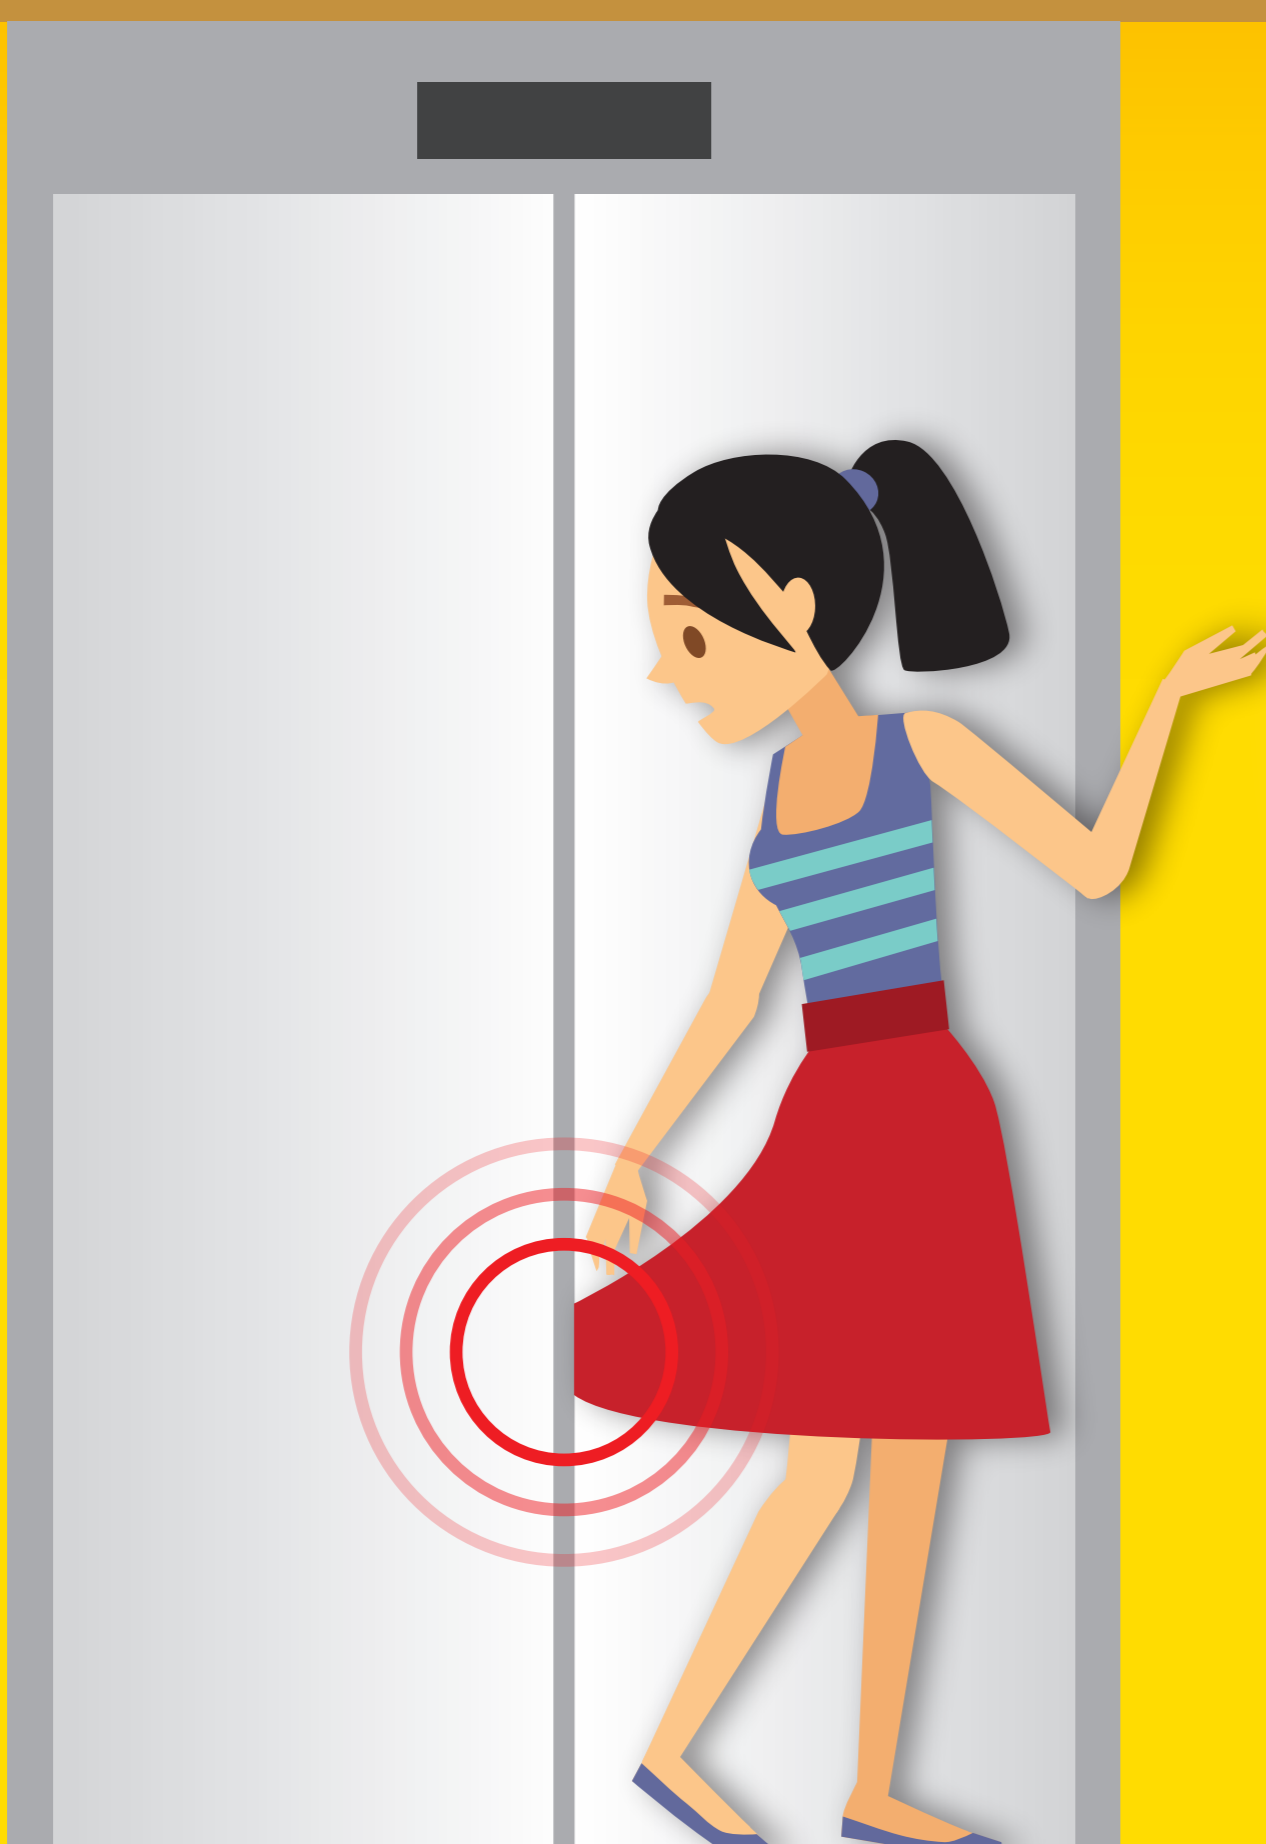

If the lift stalls,  
press the  
alarm and wait  
for rescue.

Supervise  
young  
children.

Do not use body  
parts to stop lift  
doors from closing.

Stay away from lift doors as  
thin objects like loose clothing  
and straps can get caught.
