About the OneMillionTrees Movement

The OneMillionTrees movement is a nationwide effort to plant a million more trees across Singapore over the next 10 years, bringing the number of trees in Singapore to more than 8 million. This movement aims to improve our urban environment and enhance our resilience towards climate change, ultimately transforming Singapore into a City in Nature.

"The CSR Tree Planting Event was an incredibly meaningful experience. I am truly grateful for the opportunity to participate and contribute to the environmental well-being of Singapore and beyond. While our individual impact may seem modest, the collective effort of our colleagues can truly make a difference. Together, we can create a positive and lasting impact on our environment."

Willie Chai, BE

"My boys and I have a blast in the tree-planting as it was the first time we were doing it together. We had fun and it was a great parent-children bonding session for us."

Jacelyn Tan, A&I

"Meaningful event to do our small bits for nature and a great time to bond with colleagues. Would love to plant more trees! :)"
