

REPLACEMENT AND REINSTATEMENT OF SAFETY BARRIER INTEGRATED WITH A WINDOW

Under Regulation 41DA of Building Control Regulations, a person who desires to replace or reinstate a safety barrier integrated with a window –

- a) for or in connection with the replacement or reinstatement of a railing, balustrade or similar barrier constructed of any material other than non-laminated glass, using the same material, design and fixing details; or
- b) in a residential building in accordance with the standardised design,

must engage an approved window contractor or a builder for the replacement or reinstatement.

The replacement and reinstatement works mentioned above must be carried out or supervised by a trained window installer who has completed the Module on Replacement and Reinstatement of Safety Barriers Integrated with Windows.

For more information, please visit <https://go.gov.sg/bca-circular-standardised-designs-for-safety-barrier>.

AWCs and licensed builders may register their Trained Window Installer(s) for the course via the following link - www.attc.singaporepiling.com.sg.
